FOR THE SOUTHERN DISTRICT OF NEW YORK**

RALPH GAMBLES, THOMAS MERCK and
ELSIE COMPO, individually and as
representatives of the Classes,

Plaintiffs,

v.

STERLING INFOSYSTEMS, INC.,

Defendant.

Case No. 1:15-cv-09746-PAE

**DECLARATION OF E. MICHELLE
DRAKE IN SUPPORT OF PLAINTIFF'S
MOTION FOR AWARD OF
ATTORNEYS' FEES, COSTS, AND
SERVICE AWARD FOR CLASS
REPRESENTATIVE**

1. I am one of Plaintiffs' Counsel in the above-captioned matter.
2. I submit this Declaration in support of Plaintiffs' Motion for Award of Attorneys' Fees, Costs, and Service Award for Class Representative.

Work in this Matter

3. In undertaking this litigation, Class Counsel and Plaintiffs agreed that Class Counsel could seek a reasonable fee of one-third of the total value of any settlement or verdict achieved, with the understanding that any fees requested in connection with a class-wide resolution would need to be approved by the Court. Class Counsel and the Named Plaintiffs agreed that this percentage was an appropriate incentive for Class Counsel to assume the financial risks involved in the representation. Class Counsel agreed to advance all costs of this litigation, and Plaintiffs and Class Counsel agreed that Class Counsel would receive reimbursement for these costs from the value of a successful settlement or judgment. Class Counsel agreed to assume the full risk of non-recovery in this action, meaning that if no recovery was achieved for the class, Class Counsel would also recover nothing.

4. Prior to filing this action on December 14, 2015, Class Counsel spent a substantial amount of time investigating and researching the legal claims and developing legal theories presented in the complaint, meeting in-person and communicating regularly with Plaintiff Michael Gambles, and drafting the Complaint.

5. After filing, Class Counsel drafted the First Amended Class Action Complaint and the Second Amended Class Action Complaint. Class Counsel then researched, drafted and successfully opposed Defendant's Motion to Dismiss Second Amended Complaint, after which Class Counsel filed the operative First *Consolidated* Class Action Complaint adding Plaintiffs Thomas Merck and Elsie Compo. Class Counsel then propounded numerous written discovery requests, and reviewed Defendant's responses and substantial document productions.

6. Class Counsel also spent significant time meeting and conferring with Defendant's counsel regarding discovery to resolve discovery disputes and negotiated extensive ESI protocol.

7. In the course of the parties' discovery, Defendant produced voluminous summary data about information contained in reports it had issued during the Class Period, and the parties engaged in extensive meet and confers about the kind of data that was necessary to meaningfully mediate the case. The parties took numerous depositions, including fact depositions, two 30(b)(6) depositions, and three expert depositions.

8. Settlement efforts were similar extensive. This matter was only resolved after two arm's-length mediations with experienced mediators, as well as numerous telephonic conferences, written exchanges, and ongoing conversations between counsel. Prior to each mediation, the Parties exchanged extensive formal mediation briefs containing their views of the merits of the case. The Parties first attempted to resolve this matter in a mediation on June 10, 2019. Despite the diligent efforts of both sides and the mediator, a resolution was not reached, and the Parties

returned to litigation. The Parties reconvened for a second mediation on December 17, 2019, with mediator Nancy Lesser. As a result of the second mediation, the parties reached an agreement in principle to settle. The Parties agreed to settle the claims advanced on behalf of the class described in the Complaint as the Outdated Adverse Information Class. The Class Representative's expert parsed Defendant's data to identify the 200,423 individuals who comprise the Class. Thereafter, the agreement was completed and memorialized in the Settlement Agreement. The Parties resolved all terms related to relief for the class before addressing Class Counsel Fees and the Class Representative Service Payment.

9. To Class Counsel's knowledge, this Settlement represents the largest outdated information settlement ever involving only a single consumer reporting agency. Not only is the Settlement impressive on a gross basis, it also results in a per-class member recovery comparable to, or better than, settlements of outdated information claims involving much more traditional forms of outdated information, such as information related to criminal charges which did not result in a conviction. Achieving parity with the results in cases alleging more traditional claims represents a remarkable achievement given the less traditional nature of the claims alleged here. Class Counsel is not aware of any other advanced class actions which have challenged the inclusion of outdated and prejudicial address information in consumer reports.

10. Class Counsel's efforts included, but are not limited to, (1) investigating the facts of the case and drafting the complaint, (2) briefing and arguing the motion to dismiss, (3) investigating the claims of the additional plaintiffs, drafting amended and consolidated complaints including those claims, (4) conducting written discovery and document review, (5) deposing fact witnesses, including two Rule 30(b)(6) depositions, (6) reviewing Defendant's expert reports, and deposing both of Defendant's experts, (7) working with Plaintiff's expert on his report, and

defending his deposition, (8) defending Plaintiff's deposition, (9) engaging in exhaustive database discovery, including extensive meet and confers, exchanging and reviewing propose database queries, reviewing data samples and the ultimate data production, and coordinating with Plaintiff's expert and opposing counsel on all of these issues, (10) conducting a jury focus group to impartially evaluate the strength and appeal of Plaintiffs' claims, (11) preparing to move for class certification, (12) drafting two mediation briefs, and attending two mediations, (12) drafting, negotiating and revising the settlement agreement and supporting documents, such as the proposed class notice, (13) soliciting bids and selecting a settlement administrator, (14) moving for preliminary settlement approval, (14) coordinating notice and other logistical details with the administrator, including the settlement website, and (15) drafting this motion. Still to be done, and not included in the count of hours listed above, are the final approval motion and hearing, responding to any class member objections or inquiries, and supervision of the administrator's distribution of the settlement fund. All of this represents an extraordinary commitment to a case where recovery was never certain, and the results of Class Counsel's efforts speak for themselves.

11. Class Counsel initiated this case at our prior firm, Nichols Kaster, PLLP, and continued working on it when we moved to our current firm, Berger Montague PC. The time and expenses from Nichols Kaster, PLLP is attached as **Exhibits 1 and 2**.

12. Class Counsel's time records from Berger Montague, attached hereto as **Exhibit 3**, demonstrate the amount of time devoted to this litigation. To date, Class Counsel have devoted over 2000 hours to litigating and settling this matter. At Class Counsel's hourly rates, the value of the time Class Counsel has expended is approximately \$1,024,344.65. Class Counsel also anticipates contributing additional time and effort to the case leading up to, and following, final approval.

13. To date, Class Counsel have incurred \$201,697.77 in out-of-pocket costs. Class Counsel anticipates incurring additional costs in connection with travel to New York for the final approval hearing, but is not seeking reimbursement for those expenses. These costs are itemized on **Exhibit 4**. The bulk of these costs were incurred in connection with paying for the mediation and engaging an expert to assist with data analysis and data requests to Defendant. All of these costs were necessarily incurred and are of the type typically reimbursed by paying clients.

14. The costs incurred by Class Counsel include case tracking expenses (“Courtlink”). Class Counsel’s actively monitors *all* new FCRA filings. Class Counsel also monitors developments on a daily basis on FCRA cases that touch on relevant issues. These efforts enabled Class Counsel to negotiate a substantial and meaningful settlement of this case, by comparing it to other FCRA cases, and by distinguishing it from other cases that settled for less, including numerous cases that involved unpublished opinions. This ongoing monitoring and research also allowed Class Counsel to effectively assess the reasonability of the recovery in this matter and motivated Class Counsel to negotiate a settlement. To Class Counsel’s knowledge, Berger Montague is the only firm in the country that tracks every FCRA filing, every day, and that maintains an ongoing database of significant FCRA legal filings, developments, opinions and settlements. The out of pocket expenses for this research and tracking are divided among Counsel’s active FCRA cases each month. It is my professional opinion that Berger Montague’s ongoing research and monitoring of FCRA cases played a substantial role in our ability to successfully litigate and favorably resolve this matter.

15. Class Representative Gambles has played a critical role in bringing this litigation to a successful conclusion. This case involves the reporting of outdated records which Plaintiff contend are not reportable under § 1681c of the FCRA. Plaintiff Gambles has been involved in

this case since its inception. I met personally with Mr. Gambles at his home at the outset of the case, and spoke to him on numerous occasions throughout the litigation. He reviewed the Complaint before it was filed in this matter, as well as the amended and consolidated complaints before their respective filings. He provided responded to interrogatories, and participated in preparing supplemental interrogatory responses. Many of Defendant's discovery requests focused on details of his address history, requiring him to review detailed documents and to respond to nuanced questions. He also produced documents in response to requests for production. During the course of the litigation he have stayed in frequent contact with Class Counsel. In the Fall of 2019, he met personally with me, again in Birmingham, Alabama to discuss the results of an initial jury focus group counsel had conducted, and to talk through a plan for a second jury focus group. he spent several hours meeting with counsel and our jury consultant in Birmingham. He met for a third time with me in December of 2019, over the course of two days. He spent several hours with counsel the night before his deposition. He appeared for his deposition on December 9, 2019, and was cross-examined by opposing counsel. He consulted with Counsel during both mediations and continued to do so during the course of the parties' ongoing settlement negotiations. Plaintiff reviewed and approved the final Settlement Agreement.

16. Below is a summary of the Berger Montague attorneys and staff who have billed at least 10 hours to this case:

Attorney/Staff	Lodestar Rate	Hours Billed	Amount
Adrienne C. Beatty	\$330	10.7	\$3,531.00
E. Michelle Drake	\$760	530.2	\$402,952.00
Jean Ebensperger	\$275	79.6	\$21,890.00
Joseph C. Hashmall	\$540	701.7	\$378,918.00
Jean K. Hibray	\$305	15.4	\$4,697.00
Angi Kittelson	\$275	16.3	\$4,482.50
Elizabeth Woolford Peterson	\$400	60.5	\$24,200.00
Arthur M. Stock	\$685	16	\$10,960.00
Mai Xiong	\$290	528.4	\$153,236.00

17. The Court approved the Angeion Group as the Settlement Administrator. Angeion has prepared and move quickly to effectuate notice. Angeion reasonably expects to incur \$259,698 in costs by the end of the settlement administration process. This amount is in line with the industry, as Angeion was chosen after a competitive bidding process.

18. Class Counsels' request for fees and costs, and Plaintiff Gambles request for Class Representative Service Payment are made in this motion, well in advance of the final approval hearing, and will be posted on the Settlement Website so that Class Members will have the opportunity to review them prior to the end of the Objection and Exclusion Period.

19. Although the precise amount of each claimant's award cannot be determined until the court rules on this motion, if all amounts requested for attorneys' fees, costs, and class representative incentive payments are approved, class counsel estimates that each claimant will receive slightly more than \$45.

28. My litigation efforts and experience have received judicial acknowledgement and praise throughout the years of my practice. Examples of such recognition include:

From Judge Harold E. Kahn, Dep't 302, Superior Court of Cal., San Fran. Cnty.:

You're very articulate on this issue. ... Obviously, you're very thoughtful and you have given it a great deal of thought. ... And I appreciate your ability to respond to my questions off the cuff. ... It shows that you have given these issues a lot of thought ... I have to say that your thoughtfulness this morning has somewhat diminished my concerns [regarding high multiplier on attorney fees]... You're demonstrating credibility by a mile as you go.... You are extraordinarily impressive. And I thank you for being here, and for your candid, noninvasive [sic] response to

every question I have. I was extremely skeptical at the outset this morning. You have allayed all of my concerns and have persuaded me that this is an important issue, and that you have done a great service to the class. And for that reason, I am going to approve your settlement in all respects... And I congratulate you on your excellent work.

Nov. 7, 2017, Final Approval Hearing, *Nesbitt v. Postmates, Inc.*, No. CGC-15-547146.

From Judge Laurie J. Michelson, United States District Court, E.D. Mich.:
Counsel's quality of work in this case was high. The Court has been impressed with counsel's in-court arguments. And counsel has provided the Court with quality briefing as well.

Aug. 11, 2017, Opinion & Order on Mtn. for Atty. Fees, and Mtn. for Final Approval, *Hillson v. Kelly Services, Inc.*, No. 15-cv-10803.

From Magistrate Judge Terence P. Kemp, United States District Court, S.D. Ohio:

The parties in this case are represented by counsel with substantial experience in class action litigation, and FCRA cases in particular. ... Class Counsel are experienced and knowledgeable in FCRA litigation, are skilled, and are in good standing.

June 30, 2017, Report & Recomm'n. on Final Approval, *Rubio-Delgado v. Aerotek, Inc.*, No. 16-cv-1066.

From Judge Paul A. Magnuson, United States District Court, D. Minn.:

[T]he class representatives and their counsel more than adequately protected the class's interests. ... [T]he comprehensive nature of the settlement in turn, reflects the adequacy, indeed the superiority, of the representation the class received from its named Plaintiffs and from class counsel.

May 17, 2017, Mem. & Order on Mtn. to Certify Class, *In re Target Corp. Customer Data Sec. Breach Litig.*, MDL No. 14-2522.

From Judge Paul A. Engelmayer, United States District Court, S.D.N.Y.:

The high quality of [plaintiffs' counsel]'s representation strongly supports approval of the requested fees. The Court has previously commended counsel for their excellent lawyering. ... The point is worth reiterating here. [Plaintiffs' counsel] was energetic, effective, and creative throughout this long litigation. The Court found [Plaintiffs' counsel]'s briefs and arguments first-rate. And the documents and deposition transcripts which the Court reviewed in the course of resolving motions revealed the firm's far-sighted and strategic approach to discovery. ... Further, unlike in many class actions, plaintiffs' counsel did not build their case by

piggybacking on regulatory investigation or settlement. ... The lawyers [] can genuinely claim to have been the authors of their clients' success.

Sept. 22, 2015, Final Approval Order, *Hart v. RCI Hospitality Holdings, Inc.*, No. 09-cv-3043.

From Magistrate Judge Laurel Beeler, United States District Court, N.D. Cal.:

Counsel have worked vigorously to identify and investigate the claims in this case, and, as this litigation has revealed, understand the applicable law and have represented their clients vigorously and effectively.

From Judge Richard H. Kyle, United States District Court, D. Minn.:

Well, I think you did a great job on this. I mean, I really do. ... it seems to me you folks have gotten it done the right way.

Jan. 6, 2014, Prelim. Approval Hearing, *Bible v. General Revenue Corp.*, No. 12-cv-1236.

From Judge Deborah Chasanow, United States District Court, D. Md.:

[plaintiffs' counsel] are qualified, experienced, and competent, as evidenced by their background in litigating class-action cases involving FCRA violations. ... As noted above, Plaintiffs' attorneys are experienced and skilled consumer class action litigators who achieved a favorable result for the Settlement Classes.

Oct. 2, 2013, Final Approval Order, *Singleton v. Domino's Pizza, LLC*, No. 11-cv1823.

From Judge Lorna G. Schofield, United States District Court, S.D.N.Y.:

[Plaintiffs' Counsel] has demonstrated it is able fairly and adequately to represent the interests of the putative class.

From Judge Susan M. Robiner, Minnesota District Court, Henn. Cnty.:

Plaintiffs' counsel are adequate legal representatives for the class. They have done work identifying and investigating potential claims, have handled class actions in the past, know the applicable law, and have the resources necessary to represent the class. The class will be fairly and adequately represented.

Oct. 16, 2012, Order Granting Mtn. for Class Cert., *Spar v. Cedar Towing & Auction, Inc.*, No. 27-CV-411-24993.

The firm has been recognized by courts throughout the country for its ability and experience in handling major complex litigation, particularly in the fields of antitrust, securities, mass torts, civil and human rights, whistleblower cases, employment, and consumer litigation. In numerous precedent-setting cases, the firm has played a principal or lead role.

The Legal Intelligencer honored the firm with its inaugural "Law Firm Innovator" award in 2018, an award which recognizes attorneys or whole firms on the cutting edge of the profession, and who think outside the box and have demonstrated an ability to distinguish their brands. *The National Law Journal*, which recognizes a select group of law firms each year that have done "exemplary, cutting-edge work on the plaintiffs side," has selected Berger & Montague in 12 out of the last 14 years (2003-05, 2007-13, 2015, 2016) for its "Hot List" of top plaintiffs' oriented litigation firms in the United States. The firm has also achieved the highest possible rating by its peers and opponents as reported in *Martindale-Hubbell*.

Currently, the firm consists of 60 lawyers; 18 paralegals; and an experienced support staff. Few firms in the United States have Berger Montague's breadth of practice and match the firm's successful track record in such a broad array of complex litigation.

History of the Firm

Berger Montague was founded in 1970 by the late David Berger to concentrate on the representation of plaintiffs in a series of antitrust class actions. David Berger helped pioneer the use of class actions in antitrust litigation and was instrumental in extending the use of the class action procedure to other litigation areas, including securities, employment discrimination, civil and human rights, and mass torts. The firm's complement of nationally recognized lawyers has represented both plaintiffs and defendants in these and other areas, and has recovered billions of dollars for its clients. In complex litigation, particularly in areas of class action litigation, Berger Montague has established new law and forged the path for recovery.

The firm has been involved in a series of notable cases, some of them among the most important in the last 40 years of civil litigation. For example, the firm was one of the principal counsel for plaintiffs in the *Drexel Burnham Lambert/Michael Milken* securities and bankruptcy litigation. Claimants in these cases recovered approximately \$2 billion in the aftermath of the collapse of the junk bond market and the bankruptcy of *Drexel* in the late 1980s. The firm was also among the principal trial counsel in the *Exxon Valdez Oil Spill* litigation in Anchorage, Alaska, a trial resulting in a record jury award of \$5 billion against Exxon, later reduced by the U.S. Supreme Court to \$507.5 million. Berger Montague was lead counsel in the *School*

Asbestos Litigation, in which a national class of secondary and elementary schools recovered in excess of \$300 million to defray the costs of asbestos abatement. The case was the first mass tort property damage class action certified on a national basis. Berger Montague was also lead/liaison counsel in the *Three Mile Island Litigation* arising out of a serious nuclear incident.

Additionally, in the human rights area, the firm, through its membership on the executive committee in the *Holocaust Victim Assets Litigation*, helped to achieve a \$1.25 billion settlement with the largest Swiss banks on behalf of victims of Nazi aggression whose deposits were not returned after the Second World War. The firm also played an instrumental role in bringing about a \$4.37 billion settlement with German industry and government for the use of slave and forced labor during the Holocaust.

Practice Areas and Notable Cases

Antitrust

In antitrust litigation, the firm has served as lead, co-lead or co-trial counsel on many of the most significant civil antitrust cases over the last 40 years, including *In re Corrugated Container Antitrust Litigation* (recovery in excess of \$366 million), the *Infant Formula* case (recovery of \$125 million), the *Brand Name Prescription Drug* price fixing case (settlement of more than \$700 million), the *State of Connecticut Tobacco Litigation* (settlement of \$3.6 billion), the *Graphite Electrodes Antitrust Litigation* (settlement of more than \$134 million), and the *High-Fructose Corn Syrup Litigation* (\$531 million). Most recently, the firm is one of three co-lead counsel *In re Payment Cards Antitrust Litigation*, which has resulted in the highest private class action settlement in U.S. history of \$7.2B (reduced to \$5.7 billion after opt outs). The firm has also played a leading role in cases in the pharmaceutical arena, especially in cases involving the delayed entry of generic or other rival drug competition, having achieved over \$1 billion in settlements in such cases over the past decade.

The *Legal 500*, a guide to worldwide legal services providers, ranked Berger Montague as a Top-Tier Firm for Antitrust: Civil Litigation and Class Actions in the United States in its 2015 guide and has repeatedly cited Berger Montague's antitrust practice as "stand[ing] out by virtue of its first-class trial skills."

For five straight years, Berger Montague has been selected by *Chambers and Partners' USA's* America's Leading Lawyers for Business as one of Pennsylvania's top antitrust firms.

In re Currency Conversion Fee Antitrust Litigation: Berger Montague, as one of two co-lead counsel, spearheaded a class action lawsuit alleging that the major credit cards had conspired to fix prices for foreign currency conversion fees imposed on credit card transactions. After eight years of litigation, a settlement of \$336 million was approved in October 2009, with a Final Judgment entered in November 2009. Following the resolution of eleven appeals, the District Court, on October 5, 2011, directed distribution of the settlement funds to more than 10 million timely filed claimants, among the largest class of claimants in an antitrust consumer class action. (MDL No. 1409 (S.D.N.Y)).

In re March banks Truck Service Inc., et al. v. Comdata Network, Inc.: Berger Montague was co-lead counsel in this antitrust class action brought on behalf of a class of thousands of Independent Truck Stops. The lawsuit alleged that defendant Comdata Network, Inc. had monopolized the market for specialized Fleet Cards used by long haul truckers. Comdata imposed anticompetitive provisions in its agreements with Independent Truck Stops that artificially inflated the fees Independents paid when accepting the Comdata's Fleet Card for payment. These contractual provisions, commonly referred to as anti-steering provisions or merchant restraints, barred Independents from taking various competitive steps that could have been used to steer fleets to rival payment cards. The settlement for \$130 million and valuable prospective relief was preliminary approved on March 17, 2014, and finally approved on July 14, 2014. In its July 14, 2014 order approving Class Counsel's fee request, entered contemporaneously with its order finally approving the settlement, the Court described this outcome as "substantial, both in absolute terms, and when assessed in light of the risks of establishing liability and damages in this case."

Ross, et al. v. Bank of America (USA) N.A., et al.: Berger Montague, as lead counsel for the cardholder classes, obtained final approval of settlements reached with Chase, Bank of America, Capital One and HSBC, on claims that the defendant banks unlawfully acted in concert to require cardholders to arbitrate disputes, including debt collections, and to preclude cardholders from participating in any class actions. The case was brought for injunctive relief only. The settlements remove arbitration clauses nationwide for 3.5 years from the so-called "cardholder agreements" for over 100 million credit card holders. This victory for consumers and small businesses came after nearly five years of hard-fought litigation, including obtaining a decision by the Court of Appeals reversing the order dismissing the case, and will aid consumers and small businesses in their ability to resist unfair and abusive credit card practices. A proposed settlement has been reached with the non-bank defendant arbitration provider (NAF), and, after defeating summary judgment, Berger Montague is preparing the case for trial against the remaining two bank defendants.

In re High Fructose Corn Syrup Antitrust Litigation: Berger Montague was one of three co-lead counsel in this nationwide class action alleging a conspiracy to allocate volumes and customers and to price-fix among five producers of high fructose corn syrup. The complaint alleged that the defendants conspired to reduce production of linerboard in order to increase the price of linerboard and corrugated boxes made therefrom. Credit Reporting & Background Checks

Berger Montague's Credit Reporting and Background Checks Practice Group litigates on behalf of consumers nationwide to protect them against violations of their rights under the Fair Credit Reporting Act and other consumer protection laws that protect consumers from inaccurate, unfair, or discriminatory credit reports or background checks.

The Fair Credit Reporting Act is a federal law that governs credit reports, background checks, and many other reports containing information about individuals. Potential and current employers and creditors are relying more and more on background checks and credit reports when making hiring and firing decisions, and the consumer reporting agencies that prepare the reports are often more concerned with profits than with accuracy. The firm is committed to ensuring that credit report and background check information is accurate and that it only be sold and used for legal purposes.

Berger Montague is dedicated to protecting consumers and ensuring that consumers receive justice when their rights have been violated by employers, consumer reporting agencies, and debt collectors. The attorneys in the Credit Reporting and Background Checks Practice Group team are dedicated to protecting consumers' rights and privacy. They are highly experienced in effectively litigating these claims and have successfully represented hundreds of thousands of consumers across the country and achieved relief worth millions of dollars on behalf of their clients.

Defective Drugs & Medical Devices

Berger Montague's Defective Drugs and Medical Devices Group is committed to helping individuals injured by defective drugs and medical devices. Every year, millions of Americans take a prescription drug or undergo a major surgery that includes a medical device implant. In some instances, the drug or device has an adverse effect or does not work as intended.

Defective Products

Berger Montague's Defective Products Group represents homeowners, vehicle owners and other consumers nationwide who have been harmed by failing products. Whether the problem is with a construction product, an appliance or an automobile, the firm will vigorously fight to protect consumers' rights under the law and to make them whole.

Manufacturers seem to have an unfair advantage when evaluating — and often rejecting or dismissing — warranty claims and other complaints made by consumers concerning faulty products. Berger Montague, however, has the ability to level the playing field through the legal system.

When a product is defective, a consumer may feel like he or she is the only one affected. But, there is a good chance that hundreds, thousands or even hundreds of thousands of other consumers have experienced the same problem. Through class action litigation, Berger Montague is able to work to right these wrongs by representing all similar claims in a single lawsuit.

Berger Montague protects the interests of individual and institutional investors in shareholder derivative actions in state and federal courts across the United States. The firm understands the concerns of its government clients, their limited budgets and the public law enforcement interests at stake. The firm is also familiar with the special sensitivities government clients often have to what may become sprawling, prolonged and costly litigation. Berger Montague minimizes the burdens on its government clients and their personnel while also deferring to their ultimate control over each matter the firm undertakes. Leveraging the firm's substantial expertise and success across multiple practice areas, together with its nationwide reputation and steadfast resolve, enables the firm to effectively assist government clients whether in actual litigation or "behind-the-scenes" confidential investigations.

To fund these structured settlements, the Hartford property and casualty insurers purchased annuities from their affiliate, Hartford Life. By purchasing the annuity from Hartford Life, The Hartford companies allegedly were able to retain up to 15% of the structured amount of the settlement in the form of undisclosed costs, commissions and profit - all of which was concealed from the settling claimants. On March 10, 2009, the U.S. District Court certified for trial claims on behalf of two national subclasses for civil RICO and fraud (256 F.R.D. 284 (D. Conn. 2009)). purchase statutorily-required optional levels of underinsured (“UIM”) and uninsured (“UM”) motorist coverage in accordance with West Virginia Code 33-6-31. The court certified a trial class seeking monetary damages, alleging that the failure to offer these optional levels of coverage, and the failure to provide increased first party benefits to personal injury claimants, breached Nationwide’s insurance policies and its duty of good faith and fair dealing, and violated the West Virginia Unfair Trade Practices Act. On June 25, 2009, the court issued final approval of a settlement that provided a minimum estimated value of \$75 million to Nationwide auto policyholders and their passengers who were injured in an accident or who suffered property damage.

The case settled in 2010 for benefits including two years of credit monitoring offered to 1.9 million individuals; a \$6.5 million cash fund to reimburse out-of-pocket losses for 17 million individuals and injunctive relief involving improvements to Countrywide's data security systems. Berger Montague served on the Executive Committee.

In re Hannaford Bros. Co. Customer Data Sec. Breach Litig., MDL 1954, No. 08-md-01954 (D. Me.). Hackers stole 4 million credit and debit card numbers from a large grocery store chain. The litigation led to groundbreaking appellate law recognizing the availability of damages for out-of-pocket credit monitoring costs and replacement credit card fees. *Anderson v. Hannaford Bros. Co.*, 659 F.3d 151, 167 (1st Cir. 2011). The appellate ruling serves as often-cited precedent in data breach litigation. Berger Montague assisted lead counsel throughout the litigation and on appeal.

In re TJX Cos. Retail Security Breach Litig., MDL No. 1838, No. 07-cv-10162-WGY (D. Mass.). Hackers stole 45 million credit and debit card numbers and 455,000 driver's license numbers, which in many instances matched Social Security numbers. The breach was the then-largest theft of consumer data in U.S. history. Berger Montague obtained a settlement in 2008 valued at over \$200 million, including: (i) two years of credit monitoring and identity theft insurance offered to 455,000 individuals whose driver's license numbers were exposed; (ii) a \$17 million fund offered to 45 million individuals to reimburse out-of-pocket costs and lost time to mitigate or correct actual or potential identity theft and (iii) injunctive relief regarding improvements to TJX's data security systems. These elements became the template for most subsequent data breach settlements. In approving the settlement, former Chief Judge William

Young praised the result as an “excellent settlement” containing “innovative” and “groundbreaking” elements. Berger Montague served as Co-Lead Counsel.

Judicial Praise for Berger Montague Attorneys

Berger Montague’s record of successful prosecution of class actions and other complex litigation has been recognized and commended by judges and arbitrators across the country. Some remarks on the skill, efficiency, and expertise of the firm’s attorneys are excerpted below.

From **Judge Madeline Cox Arleo** of the U.S. District Court for the District of New Jersey praising the efforts of all counsel:

I just want to thank you for an outstanding presentation. I don’t say that lightly . . . it’s not lost on me at all when lawyers come very, very prepared. And really, your clients should be very proud to have such fine lawyering. I don’t see lawyering like this every day in the federal courts, and I am very grateful. And I appreciate the time and the effort you put in, not only to the merits, but the respect you’ve shown for each other, the respect you’ve shown for the Court, the staff, and the time constraints. And as I tell my law clerks all the time, good lawyers don’t fight, good lawyers advocate. And I really appreciate that more than I can express.

Transcript of the September 9 to 11, 2015 *Daubert* Hearing in antitrust action *Castro v. Sanofi Pasteur*, No. 11-cv-07178 (D.N.J.) at 658:14-659:4.

From **Judge William H. Pauley, III**, of the U.S. District Court of the Southern District of New York:

Class Counsel did their work on their own with enormous attention to detail and unflagging devotion to the cause. Many of the issues in this litigation . . . were unique and issues of first impression.

* * *

Class Counsel provided extraordinarily high-quality representation. This case raised a number of unique and complex legal issues The law firms of Berger & Montague and Coughlin Stoia were indefatigable. They represented the Class with a high degree of professionalism, and vigorously litigated every issue against some of the ablest lawyers in the antitrust defense bar.

In re Currency Conversion Fee Antitrust Litigation, 263 F.R.D. 110, 129 (2009), an antitrust action.

From **Judge Faith S. Hochberg** of the U.S. District Court for the District of New Jersey:

[W]e sitting here don't always get to see such fine lawyering, and it's really wonderful for me both to have tough issues and smart lawyers ... I want to congratulate all of you for the really hard work you put into this, the way you presented the issues, ... On behalf of the entire federal judiciary I want to thank you for the kind of lawyering we wish everybody would do.

In re Remeron Antitrust Litig., Civ. No. 02-2007 (Nov. 2, 2005), an **antitrust** action.

From **Judge Jan DuBois** of the U.S. District Court of the Eastern District of Pennsylvania:

[T]he size of the settlements in absolute terms and expressed as a percentage of total damages evidence a high level of skill by petitioners ... The Court has repeatedly stated that the lawyering in the case at every stage was superb, and does so again.

In Re Linerboard Antitrust Litig., 2004 WL 1221350, at *5-*6 (E.D. Pa. 2004), an **antitrust** action.

From **Judge Nancy G. Edmunds** of the U.S. District Court of the Eastern District of Michigan:

[T]his represents an excellent settlement for the Class and reflects the outstanding effort on the part of highly experienced, skilled, and hard working Class Counsel....[T]heir efforts were not only successful, but were highly organized and efficient in addressing numerous complex issues raised in this litigation[.]

In re Cardizem CD Antitrust Litig., MDL No. 1278 (E.D. Mich., Nov. 26, 2002), an **antitrust** action.

From **Judge Charles P. Kocoras** of the U.S. District Court for the Northern District of Illinois:

The stakes were high here, with the result that most matters of consequence were contested. There were numerous trips to the courthouse, and the path to the trial court and the Court of Appeals frequently traveled. The efforts of counsel for the class has [sic] produced a substantial recovery, and it is represented that the cash settlement alone is the second largest in the history of class action litigation. . . . There is no question that the results achieved by class counsel were extraordinary[.]

In Re Brand Name Prescription Drugs Antitrust Litigation, 2000 U.S. Dist. LEXIS 1734, at *3-*6 (N.D. Ill. Feb. 9, 2000), regarding the work of Berger Montague in achieving more than \$700 million in settlements with some of the defendants in **antitrust** action.

From **Judge Peter J. Messitte** of the U.S. District Court for the District of Maryland:

The experience and ability of the attorneys I have mentioned earlier, in my view in reviewing the documents, which I have no reason to doubt, the plaintiffs' counsel are at the top of the profession in this regard and certainly have used their expertise to craft an extremely favorable settlement for their clients, and to that extent they deserve to be rewarded.

Settlement Approval Hearing, Oct. 28, 1994, in *Spawd, Inc. and General Generics v. Bolar Pharmaceutical Co., Inc.*, CA No. PJM-92-3624 (D. Md.), an **antitrust** action.

From **Judge Donald W. Van Artsdalen** of the U.S. District Court for the Eastern District of Pennsylvania:

As to the quality of the work performed, although that would normally be reflected in the not immodest hourly rates of all attorneys, for which one would expect to obtain excellent quality work at all times, the results of the settlements speak for themselves. Despite the extreme uncertainties of trial, plaintiffs' counsel were able to negotiate a cash settlement of a not insubstantial sum, and in addition, by way of equitable relief, substantial concessions by the defendants which, subject to various condition, will afford the right, at least, to lessee-dealers to obtain gasoline supply product from major oil companies and suppliers other than from their respective lessors. The additional benefits obtained for the classes by way of equitable relief would, in and of itself, justify some upward adjustment of the lodestar figure.

Bogosian v. Gulf Oil Corp., 621 F. Supp. 27, 31 (E.D. Pa. 1985), an **antitrust** action.

From **Judge Krupansky**, who has been elevated to the Sixth Circuit Court of Appeals:

Finally, the court unhesitatingly concludes that the quality of the representation rendered by counsel was uniformly high. The attorneys involved in this litigation are extremely experienced and skilled in their prosecution of antitrust litigation and other complex actions. Their services have been rendered in an efficient and expeditious manner, but have nevertheless been productive of highly favorable result.

In re Art Materials Antitrust Litigation, 1984 CCH Trade Cases ¶ 65, 815 (N.D. Ohio 1983), an **antitrust** action.

From **Judge Joseph Blumenfeld** of the U.S. District Court for the District of Connecticut:

The work of the Berger firm showed a high degree of efficiency and imagination, particularly in the maintenance and management of the national class actions.

In re Master Key Antitrust Litigation, 1977 U.S. Dist. LEXIS 12948, at *35 (Nov. 4, 1977), an **antitrust** action.

From **Judge Jed Rakoff** of the U.S. District Court for the Southern District of New York:

[Lead counsel made] very full and well-crafted ... excellent submissions ... very fine job done by plaintiffs' counsel in this case ... [this was] surely a very good result under all the facts and circumstances.

In re Merrill Lynch & Co., Inc. Securities, Derivative & ERISA Litigation, Master File No. 07-cv-9633(JSR)(DFE) (S.D.N.Y., July 27, 2009), a **securities** action.

From **Judge Michael M. Baylson** of the U.S. District Court for the Eastern District of Pennsylvania:

The Court is aware of and attests to the skill and efficiency of class counsel: they have been diligent in every respect, and their briefs and arguments before the Court were of the highest quality. The firm of Berger & Montague took the lead in the Court proceedings; its attorneys were well prepared, articulate and persuasive.

In re CIGNA Corp. Sec. Litig., 2007 U.S. Dist. LEXIS 51089, at *17-*18 (E.D. Pa. July 13, 2007). a **securities** action.

From **Chancellor William Chandler, III** of the Delaware Chancery Court:

All I can tell you, from someone who has only been doing this for roughly 22 years, is that I have yet to see a more fiercely and intensely litigated case than this case. Never in 22 years have I seen counsel going at it, hammer and tong, like they have gone at it in this case. And I think that's a testimony – Mr. Valihura correctly says that's what they are supposed to do. I recognize that; that is their job, and they were doing it professionally.

Ginsburg v. Philadelphia Stock Exchange, Inc., No. 2202 (Del. Ch., Oct. 22, 2007), a **securities** action.

From **Judge Stewart Dalzell** of the U.S. District Court for the Eastern District of Pennsylvania:

Thanks to the nimble class counsel, this sum, which once included securities worth \$149.5 million is now all cash. Seizing on an opportunity Rite Aid presented, class counsel first renegotiated what had been stock consideration into Rite Aid Notes and then this year monetized those Notes. Thus, on February

11, 2003, Rite Aid redeemed those Notes from the class, which then received \$145,754,922.00. The class also received \$14,435,104 in interest on the Notes.

...

Co-lead counsel ... here were extraordinarily deft and efficient in handling this most complex matter... they were at least eighteen months ahead of the United States Department of Justice in ferreting out the conduct that ultimately resulted in the write down of over \$1.6 billion in previously reported Rite Aid earnings. In short, it would be hard to equal the skill class counsel demonstrated here.

In re Rite Aid Corp. Securities Litigation, 269 F. Supp. 2d 603, 605, n.1, 611 (E.D. Pa.2003), a securities action.

From **Judge Helen J. Frye**, United States District Judge for the U.S. District Court for the District of Oregon:

In order to bring about this result [partial settlements then totaling \$54.25 million], Class Counsel were required to devote an unusual amount of time and effort over more than eight years of intense legal litigation which included a four-month long jury trial and full briefing and argument of an appeal before the Ninth Circuit Court of Appeals, and which produced one of the most voluminous case files in the history of this District.

* * *

Throughout the course of their representation, the attorneys at Berger & Montague and Stoll, Stoll, Berne, Lokting & Shlachter who have worked on this case have exhibited an unusual degree of skill and diligence, and have had to contend with opposing counsel who also displayed unusual skill and diligence.

In Re Melridge, Inc. Securities Litigation, No. CV 87-1426-FR (D. Ore. April 15, 1996), a securities action.

From **Judge Marvin Katz** of the U.S. District Court for the Eastern District of Pennsylvania:

[T]he co-lead attorneys have extensive experience in large class actions, experience that has enabled this case to proceed efficiently and professionally even under short deadlines and the pressure of handling thousands of documents in a large multi-district action... These counsel have also acted vigorously in their clients' interests....

* * *

The management of the case was also of extremely high quality.... [C]lass counsel is of high caliber and has extensive experience in similar class action litigation.... The submissions were of consistently high quality, and class counsel has been notably diligent in preparing filings in a timely manner even when under tight deadlines.

In re Ikon Office Solutions, Inc. Securities Litigation, 194 F.R.D. 166, 177, 195 (E.D. Pa. 2000), commenting on class counsel, where the firm served as both co-lead and liaison counsel in this securities action.

From **Judge William K. Thomas**, Senior District Judge for the United States District Court for the Northern District of Ohio:

In the proceedings it has presided over, this court has become directly familiar with the specialized, highly competent, and effective quality of the legal services performed by Merrill G. Davidoff, Esq. and Martin I. Twersky, Esq. of Berger & Montague....

* * *

Examination of the experience-studded biographies of the attorneys primarily involved in this litigation and review of their pioneering prosecution of many class actions in antitrust, securities, toxic tort matters and some defense representation in antitrust and other litigation, this court has no difficulty in approving and adopting the hourly rates fixed by Judge Aldrich.

In re Revco Securities Litigation, Case No. 1:89CV0593, Order (N.D. Oh. September 14, 1993), a securities action.

From **Deputy Treasury Secretary Stuart E. Eizenstat**:

We must be frank. It was the American lawyers, through the lawsuits they brought in U.S. courts, who placed the long-forgotten wrongs by German companies during the Nazi era on the international agenda. It was their research and their work which highlighted these old injustices and forced us to confront them. Without question, we would not be here without them.... For this dedication and commitment to the victims, we should always be grateful to these lawyers.

in his remarks at the July 17, 2000 signing ceremony for the international agreements which established the German Foundation to act as a funding vehicle for the payment of claims to Holocaust survivors.

From **Judge Janet C. Hall**, of the U.S. District Court of the District of Connecticut, noting:

[V]ery significant risk in pursuing this action [given its] uniqueness [as] there was no prior investigation to rely on in establishing the facts or a legal basis for the case....[and] no other prior or even now similar case involving parties like these plaintiffs and a party like these defendants.

...

[T]he quality of the representation provided to the plaintiffs ... in this case has been consistently excellent.... [T]he defendant[s] ... mounted throughout the course of the five years the case pended, an extremely vigorous defense.... [B]ut for counsel's outstanding work in this case and substantial effort over five years,

no member of the class would have recovered a penny.... [I]t was an extremely complex and substantial class ... case ... [with an] outstanding result.

Spencer, et al. v. The Hartford Financial Services Group, Inc., et al., order approving the \$72.5 million final settlement of this action, dated September 21, 2010 (No. 3:05-cv-1681, D. Conn.), regarding the work of Berger Montague attorneys Peter R. Kahana and Steven L. Bloch, among other co-class counsel, in this [insurance fraud](#) action.

From **Judge Harold E. Kahn**, Dep't 302, Superior Court of Cal., San Fran. Cnty.:

You're very articulate on this issue. ... Obviously, you're very thoughtful and you have given it a great deal of thought. ... And I appreciate your ability to respond to my questions off the cuff. ... It shows that you have given these issues a lot of thought ... I have to say that your thoughtfulness this morning has somewhat diminished my concerns [regarding high multiplier on attorney fees]... You're demonstrating credibility by a mile as you go....You are extraordinarily impressive. And I thank you for being here, and for your candid, noninvasive [sic] response to every question I have. I was extremely skeptical at the outset this morning. You have allayed all of my concerns and have persuaded me that this is an important issue, and that you have done a great service to the class. And for that reason, I am going to approve your settlement in all respects... And I congratulate you on your excellent work.

Nov. 7, 2017, Final Approval Hearing, *Nesbitt v. Postmates, Inc.*, No. CGC-15-547146, regarding Berger Montague shareholder E. Michelle Drake in this [credit reporting & background checks class action](#).

Counsel's quality of work in this case was high. The Court has been impressed with counsel's in-court arguments. And counsel has provided the Court with quality briefing as well.

From **Magistrate Judge Terence P. Kemp**, U.S. District Court for the Southern District of Ohio:

From **Judge Paul A. Magnuson**, U.S. District Court for the District of Minnesota:

[T]he class representatives and their counsel more than adequately protected the class's interests. ... [T]he comprehensive nature of the settlement in turn, reflects the adequacy, indeed the superiority, of the representation the class received from its named Plaintiffs and from class counsel.

May 17, 2017, Mem. & Order on Mtn. to Certify Class, *In re Target Corp. Customer Data Sec. Breach Litig.*, MDL No. 14-2522, regarding Berger Montague shareholder E. Michelle Drake, and other lead counsel, in this [data breach class action](#).

From **Magistrate Judge Jonathan W. Feldman** of the U.S. District Court for the Western District of New York:

First of all, I want to tell both parties that the briefing was really, really good here. And both briefs were very well written and persuasive. .. the arguments were as good as the briefing, so good job.

Transcript of the June 14, 2018 Hearing in *Koppers v. Weyerhaeuser Company*, Case No. 17-cv-6557 (W.D.N.Y.), in a [defective products](#) class action.

From **Robert E. Conner**, Public Arbitrator with the National Association of Securities Dealers, Inc.:

[H]aving participated over the last 17 years in 400 arbitrations and trials in various settings, ... the professionalism and the detail and generally the civility of everyone involved has been not just a cause for commentary at the end of these proceedings but between ourselves [the arbitration panel] during the course of them, and ... the detail and the intellectual rigor that went into the documents was fully reflective of the effort that was made in general. I wanted to make that known to everyone and to express my particular respect and admiration.

We appreciate the considerable time you spent preparing and delivering this important course across the state. It is no surprise to me that the judges rated this among the best programs they have attended in recent years.
