Definitions

A “Subject Engine” is a Caterpillar EPA 2007 Compliant C13 and C15 diesel engine with Advanced Combustion Emission Reduction Technology (“ACERT”) manufactured in 2005, 2006, 2007, 2008 or 2009, including the CRS components of the engines. Visit the website www.EngineSettlement.ca for complete descriptions and photographs of the Subject Engines, explanations on how to identify them and the types of vehicles that included them.

“Caterpillar Regeneration System” or “CRS” means the components of the Subject Engine which are more fully defined or described by the parts set forth in Attachment A of the Settlement Agreement (also available at the website).

“CRS Related Repair” means a repair or replacement of any Caterpillar Regeneration System related part or component as indicated by the 45 DT and F code combinations reflected in Attachment A of the Settlement Agreement. Repairs or replacements made due to a Caterpillar Service Letter performed pro-actively are not considered a CRS Related Repair.

SECTION A: Settlement Benefit Options

Note that all amounts are subject to a pro-rata increase *or* reduction based on the number of Approved Claims/Engines, per the terms of the Settlement Agreement.

- i) If your Engine(s) experienced no CRS Related Repairs, you are eligible to receive, but not guaranteed, \$500, for each Subject Engine, but no more under any circumstance.
- ii) If your Engine(s) experienced 1-5 qualified CRS Related Repairs performed on or before the Execution Date, you are eligible to receive, but not guaranteed, an initial amount of \$5,000, up to a maximum of \$15,000, per Subject Engine.
- iii) If your Engine(s) experienced 6 or more qualified CRS Related Repairs performed on or before the Execution Date, you are eligible to receive, but not guaranteed, an initial amount of \$10,000, up to a maximum of \$30,000, per Subject Engine.

Your claim will be based on the number of Subject Engines for which you provide information. If you were sent this Claim Form in the mail or by email, Subject Engine information may have been pre-populated on this Claim Form.
